

Component Spotlight

Jurisdiction Trends component

About the component:

This component enables users to understand total waiting list trends for Outpatients/Elective surgery/ Gastrointestinal (GI) scope procedures with consideration to long waits and provides a structured approach to identifying specific areas for monitoring and potential service improvement.

Who it's for: Departments of Health or Health Funding and Service Delivery units will use HSEView – KPI's.

Where you'll find it: SystemView > HSE View > Jurisdiction Trends.

Data refresh rates: The data within this component will be updated at daily intervals - or every 15 min depending on the metric.

Step 1.

Sign in to SystemView using your current hospital credentials and password

Step 2.

Navigate to HSE View > Jurisdiction

Use **dropdown** arrow to generate Outpatient/IPDC/Gi Scopes Total waiting list and Over Target Patients options

Step 3.

Apply drop-down filters at the top of the component to refine the data.

Commented [EV1]: box under chart, if done with edit in snip tool it would be easier

Suspended Filter – This will give you the option to include or exclude patients from the trend analysis that are either ready or not ready for care.

Step 4.

Key Metrics: Outpatient Waiting List provides an overview of long waits referrals and the total number of referrals on the wait list based on the latest update. The Longest Wait value is based on the longest waiting referral on the wait list as at the last update.

Outpatients Total Waiting List and Over target Trends provides a weekly trend over the previous 12 months to display the total outpatient waiting list as well as the proportion and trend of over target.

Selecting analysis will open explore environment, Outpatient Waiting List Trends and provide further analysis for the selected hospital group. (see [component spotlight Outpatients > Waiting List > Trends](#))

Outpatients Total Waiting List and Over Target Patients by Hospital Group/Trends for Hospital group chart provides a summary of the current outpatient waiting list and over target (based on last update) split out by each hospital group within the Jurisdiction.

Selecting a bar from one of the hospital groups will generate a trend chart that displays the total waiting list and long waits weekly trends over the previous 12 months for the group selected.

Selecting Hospital analysis will open up explore environment, Outpatient Waiting List Trends and provide further analysis for the selected hospital. (see [component spotlight Outpatients > Waiting List > Trends](#))
